JOINT MORTAR

CLINK' JOINTING

METHOD OF APPLICATION

PREPARATION:

- The joints must be clean and dust-free.
- The tiles must be laid at least 24 hours before jointing is carried out.

PRODUCT PREPARATION:

- Sprinkle CLINK'JOINTING into clean water. Mix by hand or with an electric mixer (on a low setting), until you have a smooth, even mixture with no lumps.
- Leave the mixture to stand for 2 minutes.

APPLICATION:

- Spread the mortar in the joints with a rubber trowel and remove the excess by scraping, preferably in a diagonal direction.
- Wait 30 to 60 minutes before wiping off the rest of the product.
- Use a damp sponge to wipe the surface clean for the final finish.
- Do not use in areas subject to intensive cleaning or the use of strong cleaning products.
